1:00-2:00	Lunch/Recess
2:00-3:30	Additional Support Time

* Online Instructional Time - Attendance Required

Online Instructional Time:

This is required class time with the class teacher and/or math or specialty teacher. It will most often be via Zoom or Google Meet.

The required hours are per day, per grade:

- Kindergarten: 1 hour
- Grades 1-8: 2 hours

Snack/Recess time:

This is a school wide scheduled non-instructional time. This means that everyday you have the flexibility to use this time in a way that works best for you and your children. We suggest to dedicate this time as “play” time or unstructured brain break time, but ultimately the parent will decide how that time looks.

Lunch/Recess time:

Just like snack time, this is a school wide scheduled non-instructional time for parents to use how they see fit.

Additional Support Time:

This time will be scheduled per student’s need at the discretion of your classroom teacher. The offer of support will be under the direction of the classroom teacher and may include one on one and/or small group support. This time may also include teacher office hours.

Weekly Schedule per class:

Class teachers will create and distribute a weekly schedule for their class that provides a schedule and/or structure for the remainder of the instructional time. This may include additional instruction, small groups, assignment completion, specialty work, or other activities.
