---

Dear Live Oak Charter School Families,

In continuing with the collaboration efforts between the County Office of Education and Sonoma County Public Health, many districts in Sonoma County are hosting a free COVID-19 vaccine clinic for students age 12+ and their families on various dates in July. If you or your student have not yet received the COVID vaccine, this is your chance!

For more details about specific times and locations, you can learn more and sign up at [scoe.org/vaccines](https://scoe.org/vaccines).

Best,

Justin Tomola

Director
